

NEWSLETTER

2025-2026

STUDENT CHAPTERS

FOREWORD

From the Principal's Desk :

Dr. Madhuri Khambete

It is my pleasure to present this edition of the Professional Chapters Newsletter, showcasing the remarkable initiatives, accomplishments, and contributions of our vibrant professional student chapters. Organizations such as IEEE, CSI, ACM, ASME, ISA, SWE, and ASHRAE play a pivotal role in enriching the academic and professional journey of our students by providing opportunities that extend well beyond the classroom.

At MKSSS's Cummins College of Engineering for Women, Pune we strongly believe that professional societies serve as a bridge between academic learning and industry expectations. Through technical workshops, expert talks, hackathons, design challenges, research activities, community outreach, and national and international competitions, our students gain invaluable exposure to emerging technologies, global best practices, and real-world problem-solving.

Our professional chapters have consistently demonstrated excellence by actively participating in prestigious national and international events, earning accolades, presenting innovative solutions, and representing our institution with confidence and professionalism. These accomplishments are the result of curiosity, dedication, teamwork, and a continuous desire to learn and grow. As you explore these pages, I hope you will be inspired by the diverse achievements and inspiring journeys of our professional chapters. I encourage every student to actively engage with these societies, seize opportunities to learn, compete, network, and innovate, and make the most of the global platforms they provide.

I congratulate all the student members, chapter executive committees, faculty advisors, and the editorial team for their dedication in making this newsletter a meaningful reflection of our collective achievements. I extend my best wishes to all our professional chapters for continued success and look forward to many more milestones in the years ahead.

With warm regards,

Dr. Madhuri Khambete

Principal

MKSSS's Cummins College of Engineering for Women, Pune

FOREWORD

From the Dean–Student Affairs’ Desk:

Dr. Dipti Patil

It gives me great pleasure to present this edition of the Professional Societies Newsletter, highlighting the vibrant culture of professional learning and technical excellence at MKSSS's Cummins College of Engineering for Women, Pune.

Our student chapters of renowned professional societies—including IEEE, IETE, ACM-W, SWE, CSI, ASME, ISA, ASHRAE, Material Advantage, and Microsoft Learn Student Chapter (MLSC)—provide students with exceptional opportunities to learn beyond the curriculum. Through technical workshops, expert lectures, webinars, industrial visits, competitions, hackathons, community outreach, leadership programs, and networking with industry and academia, these societies bridge the gap between classroom learning and professional practice.

These platforms nurture technical competence, innovation, leadership, teamwork, ethical values, and lifelong learning while exposing students to emerging technologies and global engineering practices. They empower our students to become confident professionals, responsible innovators, and future leaders capable of addressing real-world challenges.

I extend my heartfelt congratulations to all student members, office bearers, faculty coordinators, alumni, and industry partners for their dedication and valuable contributions. Your collective efforts have strengthened a culture of excellence, collaboration, and continuous learning within our institution.

I hope this newsletter inspires every student to actively engage with professional societies, broaden their horizons, and make the most of the opportunities they offer for technical, professional, and personal growth.

Best wishes for continued success!

Dr. Dipti Durgesh Patil
Dean – Student Affairs

ABOUT

Society of Women Engineers (SWE) CCEW empowers women in engineering by fostering leadership, technical excellence, mentorship, and professional growth. Through workshops, networking sessions, mentoring initiatives, and skill-development programs, the chapter creates opportunities for students to learn, collaborate, and excel while building an inclusive engineering community.

EVENTS

1. ORIENTATION SESSION
2. GREY PROJECT MENTORING SESSION
3. STEM SPIRE ALUMNI MEET 2025
4. ENGINEER OF THE WEEK 3.0
5. RESUME BUILDING SESSION
6. INCUBE x TGP IDEATHON FINALE
7. WE LOCAL PUNE 2025 PRESS CONFERENCE

CO-ORDINATORS

FACULTY CO-ORDINATOR
DR. ANAGHA KULKARNI

STUDENT CO-ORDINATORS:
ABHA BARGE

ORIENTATION SESSION

The Orientation Session introduced first-year students to SWE, its global vision, chapter initiatives, and opportunities for leadership, mentoring, networking, and technical development. The session encouraged students to actively participate in the SWE community.

GREY PROJECT MENTORING SESSION

The GreyProject connected junior students with experienced mentors through speed mentoring. Discussions on academics, internships, placements, technical skills, and career planning provided valuable guidance while strengthening mentorship within the SWE community.

STEMSPIRE ALUMI MEET 2025

The STEMspire Alumni Meet featured alumni sharing insights on career growth, higher studies, networking, research opportunities, and industry trends. The interactive session inspired students to embrace continuous learning and professional development.

SWE

2025-2026

ENGINEER OF THE WEEK 3.0

Engineer of the Week celebrated students who excelled in academics, leadership, and mentorship. Through social media features, the initiative inspired peers by showcasing achievements, experiences, and guidance from outstanding student contributors

RESUME BUILDING SESSION

The Resume Building Session guided students on creating professional resumes for internships and placements. Speakers shared practical tips on resume structure, project presentation, common mistakes, and profile building

INCUBE * TGP IDEATHON FINALE

The InCube *TGP Ideathon Finale encouraged students to develop innovative solutions for real-world challenges. Finalists presented their ideas before an expert panel, promoting creativity, problem-solving, teamwork, and innovation.

ACHIEVEMENTS

SWE - AWARDS

Ishita Shete received the SWE Rising Star Award, while Kruti Newalkar was honored with the SWE Catalyst Award, recognizing their leadership, dedication, and contributions to the SWE community.

IEEE

2025-2026

EVENTS

TECHNOSPHERX 2025 (27 SEPT 2025)

Technosphinx 2025 featured competitions such as AI Solutions Challenge, Vibe-Athon, and Sustain-A-Meme, along with workshops on Agentic AI, Android Development, and Arduino Applications. With participation from nearly 300 students, the event promoted innovation, teamwork, and hands-on technical learning.

IEEE DAY ORIENTATION

To celebrate IEEE Day 2025, an orientation session was conducted for first-year students. Participants were introduced to IEEE, its benefits, technical opportunities, and global platforms. An awareness session on IEEE Xtreme and an interactive quiz encouraged students to actively engage in IEEE activities and professional development.

EVENTS

AGENTIC AI WORKSHOP

An insightful workshop by Dr. Bhushan Garware (AI Consultant, Google) introduced students to Agentic AI, RAG, LangChain, LangGraph, and real-world AI applications. Around 90 participants gained practical insights into emerging AI technologies through demonstrations and interactive discussions.

PANEL DISCUSSION

A panel discussion featuring senior students was conducted to provide guidance on DSA, core subjects, placements, projects, and effective preparation strategies. Through an interactive discussion and Q&A session, participants gained valuable insights into academic planning, skill development, and career preparation.

ACHIEVEMENT

IEEE TRYENGINEERING STEM GRANT 2026

The IEEE Student Branch – CIS Chapter, CCOEW received the prestigious IEEE TryEngineering STEM Grant of USD 500 for its project, "Solar Energy Explorers: Solar Car Racing Challenge." Selected from 465 global applications, the proposal was recognized for its innovation, creativity, and impact in promoting STEM education and outreach.

ACM

2025-2026

EVENTS

CODE IT 2025

CodeIT 2025, ACM-W CCEW's flagship coding competition, challenged students to solve DSA problems on HackerRank. With over 112 participants from multiple colleges, the event promoted competitive programming, logical thinking, and problem-solving.

SHINIGAMI STACK

Shinigami Stack was a two-day DSA learning initiative featuring beginner-friendly sessions, an interactive panel discussion, and a HackerRank contest. The event encouraged peer learning and strengthened students' programming fundamentals.

ACM DISTINGUISHED SPEAKER PROGRAM

Dr. Neha Sharma delivered an insightful session on open data, data science, and the UN Sustainable Development Goals. Participants explored real-world applications of data science and gained valuable insights into career opportunities.

EVENTS

RAISE THE CEILING

Celebrating International Women's Day, Raise the Ceiling featured keynote talks and panel discussions by distinguished women leaders from academia and industry. The event inspired students through discussions on leadership, career growth, and professional excellence.

AXIOMIVE 2.0-IGNITE SESSION

The Ignite Session introduced students to innovation and ideation through inspiring talks on research, AI, cybersecurity, and competitive platforms. It encouraged participants to think creatively and confidently transform ideas into solutions.

AXIOMIVE 2.0

AxiomIVE2.0, ACM-W CCEW's national-level ideathon, brought together students to develop innovative solutions for real-world challenges. The event promoted creativity, collaboration, critical thinking, and impactful problem-solving.

ABOUT

The IETE StudentForum (ISF) is a dynamic platform for Electronics & Telecommunication (E&TC) students, dedicated to fostering technical excellence and professional growth. ISF actively counsels students on emerging opportunities, organizes technical events like seminars and workshops, and provides a collaborative space for knowledge exchange. It also bridges academia and industry through technical visits and project guidance.

EVENTS

1. DESIGN DYNAMO 2.0
2. IETE ISF ORIENTATION SESSION
3. THE POWER HUNT

EVENTS

DESIGN DYNAMO 2.0

Design Dynamo 2.0 challenged students to design and build bridge prototypes using design thinking principles. The event encouraged creativity, teamwork, innovation, and practical problem-solving while applying engineering concepts to real-world challenges.

IETE ISF ORIENTATION SESSION

The Orientation Session introduced students to IETE, its membership benefits, technical activities, and professional development opportunities. An interactive quiz and discussion encouraged active participation and highlighted the value of teamwork and technical learning.

EVENTS

THE POWER HUNT

The Power Hunt was an interactive technical treasure hunt that tested participants' logical thinking, teamwork, and problem-solving abilities. The event combined electronics concepts with engaging challenges, creating a fun and enriching learning experience.

NATIONAL LEVEL PROJECT COMPETITION

NLPC-2026 brought together students to present innovative engineering projects before expert judges. The competition promoted research, innovation, teamwork, and project-based learning while providing valuable technical feedback and practical exposure.

2025-2026

Team

RESUME BUILDING SESSION

A professional development session guided students in preparing industry-ready resumes for internships and placements. Participants learned effective resume structuring, ATS- friendly formatting, and best practices for showcasing skills, projects, and achievements.

ARAI TEAM BONDING TREK

A team-bonding trek to ARAI Hills encouraged collaboration, communication, and stronger interpersonal connections among chapter members. Interactive activities and discussions fostered teamwork and strengthened the chapter's spirit.

GROUP DISCUSSION AWARENESS PROGRAM

This session familiarized students with the group discussion process used during campus placements. Through expert guidance and mock GD activities, participants improved their communication, teamwork, and critical thinking skills.

Team

AI * CAD WORKSHOP

The workshop introduced students to AI- assisted CAD design using Fusion 360. A hands-on design competition encouraged participants to apply generative design concepts, innovation, and teamwork to solve engineering challenges.

IC ENGINE WORKSHOP

A practical workshop on IC engine assembly and disassembly provided students with hands-on experience in understanding engine components, valve train mechanisms, and maintenance procedures, bridging theoretical concepts with real-world applications.

IC ENGINE COMPONENT IDENTIFICATION QUIZ

Following the workshop, participants tested their understanding by identifying engine components and their materials through an interactive quiz, reinforcing concepts learned during the hands-on session.

CYBERSECURITY AWARENESS COMMUNITY EVENT

A cybersecurity awareness session was organized in collaboration with the CSI Pune Chapter to educate citizens about cyber threats, online fraud, and safe digital practices. Through expert talks and an interactive Q&A session, participants gained practical knowledge on protecting their personal and financial information online.

FIRST YEAR INDUCTION PROGRAM

The CSI Student Chapter welcomed first-year students by introducing them to the society's activities, and membership benefits. The session highlighted opportunities for technical learning, industry exposure and encouraged students to actively participate in future CSI initiatives.

AGENTIC AI GUEST SESSION

An expert session on Agentic AI introduced students to the fundamentals of autonomous AI systems and their real-world applications. The interactive talk explored intelligent agents, emerging AI technologies, and future research opportunities, inspiring students to delve deeper into advanced artificial intelligence.

BITS OF PAPER

Bits of Paper is an ongoing research discussion initiative that simplifies technical research papers for students. Covering topics such as DBSCAN, Machine Learning, and Deep Learning, the sessions promote research-oriented thinking, conceptual clarity, and collaborative learning through structured discussions and supplementary learning resources.

CYBERSECURITY AWARENESS COMMUNITY EVENT (2)

A second cybersecurity awareness session was conducted for senior citizens to promote safe digital practices and awareness about cyber frauds. Participants learned about phishing, UPI scams, digital privacy, and cybersecurity best practices through expert guidance, practical examples, and interactive discussions.

VIBE CODING SESSION

Conducted by experts from TeemGenie Labs, the Vibe Coding Session introduced students to AI-assisted software development using modern tools like Cursor IDE, Next.js, React, and Supabase. Through live demonstrations and prompt engineering techniques, participants gained valuable insights into modern AI-powered development workflows.

7. PARTICIPATION IN ORBITRON WORKSHOP AT VIT VELLORE
8. E-FEST TECH CONNECT SESSION

ORIENTATION 2025-26

The Orientation 2025-2026 session introduced students to ASME, its mission, membership benefits, and the activities planned for the academic year. Students learned about technical workshops, industrial visits, competitions, and leadership opportunities. Interactive games and discussions created an engaging atmosphere while encouraging students to become active members of the ASME CCOEW Student Section.

NEXT-GEN ENGINEERING CAREERS IN THE AGE OF AI

This online guest session by *Mr. Ganesh Pai*, Senior Innovation Executive in the Automotive R&D sector, explored how Artificial Intelligence is transforming engineering careers. Students gained insights into emerging technologies, future career opportunities, and the importance of continuous learning, adaptability, and problem-solving skills to thrive in an AI-driven engineering landscape.

HANDS-ON WORKSHOP ON CAE

A two-day hands-on workshop by Mr. Nachiket Phadke and the Eleno team introduced students to CAE tools, LS-DYNA simulations, and real-world applications in automotive and defence engineering.

DIGITAL TWIN ARENA

Conducted during Innovation 2026, this event introduced students to digital twin technology through simulations, dashboards, and engineering case studies, enhancing analytical and problem-solving skills.

INTERNSHIP TALK 2025-2026

Seniors and alumni shared internship experiences, industry insights, and practical advice on resume building, interviews, and career preparation, helping students prepare for professional opportunities.

MAHARASHTRA STUDENT SECTION MEET 2025 – IIT BOMBAY

ASME CCOEW members represented the college at IIT Bombay, participating in leadership sessions, technical discussions, and networking activities with students and industry professionals.

PARTICIPATION WORKSHOP AT VIT VELLORE

Students gained hands-on experience in CanSat technology, embedded systems, ESP32 programming, and wireless communication, strengthening their practical aerospace engineering skills.

EXPERT LECTURE ON ARTIFICIAL INTELLIGENCE IN HVAC SYSTEMS

An expert lecture introduced students to the role of AI in HVAC systems, highlighting predictive maintenance, energy optimization, and smart building technologies. Students also explored emerging career opportunities in AI-driven engineering.

INDUSTRIAL VISIT TO JAI JINENDRA COLD STORAGE

Students gained practical exposure to ammonia-based refrigeration systems, cold storage operations, and industrial cooling technologies. The visit strengthened their understanding of refrigeration cycles and HVAC applications.

INDUSTRIAL VISIT TO PERSISTENT SYSTEMS – BHAGIRATH OFFICE

The visit provided insights into commercial HVAC systems, Building Management Systems (BMS), and energy-efficient building operations. Students observed modern cooling and automation technologies used in IT infrastructure.

INDUSTRIAL VISIT REFCON ENGINEERING SERVICES PVT. LTD.

Students visited Refcon Engineering Services Pvt. Ltd., Pune, to gain practical insights into industrial refrigeration and HVAC systems. The visit covered evaporative condensers, screw compressors, skid-mounted refrigeration units, and manufacturing practices, helping students connect theoretical concepts with real-world industrial applications.

The ISA CCOEW StudentChapter promotestechnical excellence and professional development in automation and control engineering. Through expert sessions, competitions, industrial visits, and networking opportunities, the chapter enables students to gain practical exposure, enhance technical skills, and connect with industry professionals.

CO-ORDINATORS

FACULTY CO-ORDINATORS:

DR.SWATI MADHE

STUDENT CO-ORDINATORS:

PRACHITI MUJUMDAR

EVENTS

- 1.AUTOMATION EXPO 2025
- 2.ISA AUTOMATION GAMES 2025
- 3.EXPERT SESSION ON INDUSTRIAL AUTOMATION & INDUSTRY 4.0
- 4.EXPERT SESSION ON CONTINUOUS PROCESS PLANTS & PROJECT DOCUMENTATION
- 5.ISA SCHOLARSHIP GATEWAY SESSION 2026
- 6.SIAT EXPO 2026 VISIT
- 7.MITSUBISHI ELECTRIC FACTORY AUTOMATION VISIT

AUTOMATION EXPO 2025

Students showcased their project, Rail Track Switch Maintenance, at Automation Expo 2025 and secured First Prize at the national level. The achievement highlighted innovation in automation and image-processing applications.

ISA AUTOMATION GAMES 2025

Students represented CCOEW at the ISA Automation Games, gaining hands-on experience in PLC programming, robotics, and industrial automation tools. The team also secured Fourth Prize in the competition.

EXPERT SESSIONS

Industry experts delivered sessions on Industry 4.0, AI, industrial automation, process plants, and project documentation. Students gained practical insights into emerging technologies and engineering practices.

SCHOLARSHIP GUIDANCE SESSION

A guidance session introduced students to ISA scholarship opportunities, application strategies, and profile building. Previous recipients shared their experiences and tips for successful applications.

SIAT EXPO 2026

Students visited SIAT Expo 2026 to explore the latest advancements in automotive testing, instrumentation, and data acquisition technologies through interactions with leading industry exhibitors.

MITSUBISHI ELECTRIC FACTORY AUTOMATION VISIT

An industrial visit to Mitsubishi Electric provided students with practical exposure to PLCs, VFDs, automated production systems, and modern manufacturing practices in industrial automation.

ACHIEVEMENTS

ISA SCHOLARSHIP 2025 RECIPIENTS

Six students from the ISA CCOEW Student Chapter—Prachiti Mujumdar, Sakshi Kulkarni, Amitoj Kaur, Shruti Kokil, Sara Patil, and Aditi Kulkarni—were awarded the prestigious ISA Scholarship 2025. Each recipient received a scholarship of USD 2,000 in recognition of their academic excellence, technical achievements, and active contribution to ISA.

ISA PUNE STUDENT VOLUNTEER OF THE YEAR AWARD 2025

Ms. Prachiti Mujumdar received the prestigious ISA Pune Student Volunteer of the Year Award 2025 for her exceptional leadership, dedicated service, and significant contribution to the activities of the ISA CCOEW Student Chapter. The award recognizes her commitment to promoting technical events, student engagement, and the growth of the ISA community.

MLSC LAUNCH EVENT

The MLSC Launch Event marked the official introduction of the Microsoft Learn Student Chapter at CCEW. Students were introduced to the chapter's vision, technical domains, upcoming workshops, hackathons, and learning opportunities. The interactive session concluded with networking and encouraged students to actively participate in future chapter initiatives.

THE IMAGINE CUP CHALLENGE

Microsoft ImagineCup 2026 encouraged students to develop innovative AI-powered solutions using Microsoft Cloud technologies. With guidance from industry mentors, participants built Minimum Viable Products (MVPs), prepared startup-style pitches, and showcased entrepreneurial thinking while solving real-world challenges through technology.

ANVAY 2026: THE BLOCKCITY EDITION

ANVAY2026, the flagship event of MLSC, provided an immersive introduction to blockchain and Web3 through hands-on learning. Participants explored smart contracts, NFTs, DAOs, and Web3 development by building components of a decentralized application using tools like Solidity and MetaMask in a gamified learning environment.

STUDENT CHAPTER

Student Chapters at MKSSS's Cummins College of Engineering for Women provide students with opportunities to learn beyond the academic curriculum and explore their technical and professional interests. Through various professional societies, students engage in workshops, expert sessions, competitions, industrial visits, mentoring activities, research initiatives, and community outreach programs.

These chapters function through dedicated student teams guided by faculty coordinators and supported by their respective professional societies. Students take active responsibility for planning, coordinating, documenting, and executing activities, developing valuable skills in leadership, teamwork, communication, and problem-solving.

The college supports Student Chapters by providing guidance, infrastructure, resources, and opportunities to conduct diverse technical and professional activities. Faculty coordinators mentor students and help them connect academic learning with practical applications and industry expectations.

Student Chapters also provide platforms for students to participate in national and international competitions, conferences, scholarships, grants, awards, and networking opportunities. Through interactions with industry professionals, alumni, experts, and peers, students gain exposure to emerging technologies and current professional practices.

Together, the efforts of students, faculty coordinators, alumni, industry mentors, and professional societies create a vibrant ecosystem of technical excellence, innovation, leadership, collaboration, and lifelong learning, helping students grow into confident and competent professionals. This aligns well with the newsletter's existing description of chapters as a bridge between academic learning and professional practice.

A Comprehensive Newsletter for 2024-25

The Editorial Team

Dean Student Affairs : Dr. Dipti Patil

Faculty coordinator & Associate Dean Student Affairs: Dr. Neeta Maitre
